

PUMP SPRAY BOTTLE

Our Pump Spray Bottle is the industry standard compressed air sprayer made of impact resistant plastic with a very fine spray pattern (8mm Nozzle) and high output.

APPLICATION

For even and constant atomization of many solvent based fluids. Solvent resistant Viton seals. To identify the content of the bottle, use our color coding rings, sold separately.

PRODUCT DATA

Plastic: PA (Polyamide)

Seals: Viton FKM

Pressure Springs: V2A

Capacity: .9 liters

Operating Pressure: 3 bar/Safety valve

Increase pressure by pumping. Turn nozzle to regulate the spray pattern.

Suitable for the following fluid containing solvents:

- Silicon Remover Mild
- Gasoline
- Benzene
- Petroleum
- Vinegar (5% aqueous acid)
- Ethyl chloride
- Glycerol
- Paints
- Linseed Oil
- Sodium hydroxide (caustic soda) 3-molarA
- Soda (sodium carbonate)
- Terpineol
- Toluene A568
- Detergent dissolved water
- Hydrogen peroxide diluted
- Xylene
