

## **Fine Line Tape Blue**

Paint line tape

### **CHARACTERISTICS**

Fine Line Tape Blue is a heat resistant film masking tape for the finest high quality paint edge lines. This product creates crisp, clean edges. The tape's extreme flexibility allows you to tape curves as well as long, straight lines. It will adhere to painted metal, rubber, glass or chrome parts. After the vehicle leaves the drying booth, the tape comes off cleanly and leaves no residue.

### **APPLICATION**

High quality masking tape for multi color paint jobs and the painting of custom designs

### **PRODUCT DATA**

Backing Material: Poly vinyl chloride film

Total thickness: .13mm

Color: Blue

Adhesion to steel: 16.42 N/100m

Adhesion to steel: (20min. dwell) 26.30 N/100mm

Tensile Strength: 210 N/100mm

Elongation at break: 100%

Application area: 0° C to 155° C

Solvent Resistance: Very Good

Dimensions

Standard Roll length: 33mm

Widths: 3, 6, 9, 12, 19 mm

### **HANDLING**

The working temperature should be between 15°C and 30°C

Surface must be clean and free from dust and grease. Pressure sensitive adhesive must be applied with a maximum of pressure in order to achieve optimal adhesion. Allow to bond for 24 hrs at 23°C.

## **PRECAUTIONS**

Clean and dry in a well ventilated area, preferably at a temperature between 10°C and 30°C. Stored under these conditions shelf life will be a minimum of one year.

## **SAFETY ISSUES**

The previously provided information is based on our current knowledge and experience when applied under normal conditions. In practice, the materials, surfaces or site conditions are so variable that no warranty can be inferred either from this information or from a verbal consultation.
