

## **MASTER GREEN TAPE**

Masking Tape

### **CHARACTERISTICS**

Master Green Tape is a slightly creped, flexible masking tape with excellent elongation and a high initial adhesion strength. It is suitable for masking jobs for wet sanding as well as for solvent-based or water-based application of color paints with subsequent drying in a drying booth. It will adhere to painted metal, rubber, glass or chrome parts. After the drying, Master Green Tape comes off cleanly and leaves no residue.

### **PRODUCT DATA**

Average Values

Backing Material: Special paper

Total Thickness: 140um +/-10%

Adhesive to steel plate (N/cm): >2.3

MD Tensile strength (N/cm): >34

MD Elongation at break: >9%

Temperature Resistance: 230°F

Stability in storage (74° F /50% RH): 18months

Dimensions: Length 50mm X 19, 25, 30, 38, 50mm
